2d. ANOTHER THACT OF LAND situated
partly in Henrice county and partly in Hanover

FIXTURES, &c., suitable for mining and head-ing coal.

There are quite a large number of fairty goed buildings on these tracts, and which are well suited for the employees of a coal-mining com-pany, and a railroad connects the mines with the city of Richmond.

It is believed that the failure of the defendant company was the result of insumicioni working capital, and that with money and energy proper-ly directed this property can be made very profitable.

It is probable that the entire subject will be sold as a whole.

Trans: One fourth cash, and the residue is three equal instalments at six twelve, and eigh-teen mouths for notes with interest added and till related, or all cash, at the option of the purchaser.
